Experience

Full Stack js Developer – TadecoGroup

December 2020 — Today

- Designed X feature from the discovery phase to the delivery phase. After launch this feature moved X metric by 8% for new users.
- Contributed to product requirement documents for our revenue team to help align us on strategy.
- Designed and documented new components for our design system so they could be used by the entire design team.

Web Developer Intern – MindEngineering

January 2020 — March 2021

- Designed and shipped a project for my client.
- Prototyped and tested various app flows for a client to help address x issue. This was successfully shipped in February 2021.

Web Developer Intern – Steg

June 2014 — October 2015

- Worked with two senior designers to own part of the product development process. Together we designed, iterated, and shipped x feature.
- Another bullet point
